Recommandations

How to respond?

- Poverty in Philippines has actually increased in the last decade – 1 out of 4 Filipinos poor
- Where is our focus as CUs? Easy accessible areas or the challenging areas where there is the greatest need
- The values of the CUs – Equality, solidarity, self help and mutual responsibility should create a natural focus on working with the underserved
 - Question we should reflect on – CUs are about uplifting and improving lives. Why do many disadvantaged shun CUs
 - CU leaders should have accountability
 - **What should be the role of government support?**
 - Golap gave an inspiring story of a poor uneducated women who was able to develop with over 100,000 members with no government support
 - Beware of costs
 - Outside funds can undermine coop sustainability mindset
 - Philippines experience – many CUs are linked to Gov support/ intervention – less on CU principles

ASIAN CREDIT UNION FORUM 10 to 12 September 2015

Thailand

Additionally

- **Need to have the mind set/ focus to reach down**
 - Being a social enterprise; Programs and services should be tied to reaching down
- **Structure is key**
 - Credit Unions should be a part of federation.
 - This helps to balance the potentially competing issues of developing a strong CU while at the same time being able to move down market

ASIAN CREDIT UNION FORUM 10 to 12 September 2015

Thailand

Making an impact

- There are instant noodles, instant milk, instant coffee but there is no such thing as instant success. Be warned against the quick fixes. Solutions cannot come from some super magnificent miraculous actions. Good results come from a consistent and good process of execution.
- Impacting poverty will take time and on going focus
- We need to have a focus on reaching the underserved, be continually willing to change, learn and improve and have a structure/ federation which allows this to happen

Growth and Sustainability of the Credit Union Network – Korean Experience

Mark Diken
Director – WAW Credit Union

Chung Sung-won
NACUFOK

ASIAN CREDIT UNION FORUM

10 to 12 September 2015

Thailand

Benefits of Collaboration

1. Credit Union ready for change
2. Shared IT = Cheaper, faster, more efficient
3. Financial stabilization & rival banks
4. Responsible lending & less delinquency
5. Standardised processes + scale
6. Improved governance and self regulation
7. High levels of trust and better reputation
8. National branding to support CU image
9. Stronger local identity, social performance

ASIAN CREDIT UNION FORUM
